

Grade 1 February News

Reading

This month we will begin asking questions before, during, and after reading. In addition, we will start to visualize while we read.

Writing

This month in writing, Grade 1 will wrap up teaching books, and move on to How To writing.

Math

Grade 1 will continue working in Module 2. We are finding different ways to add with three addends, balance equations, and finding missing parts. It would be great to continue practicing math facts at home with your child. Each week we will have a math fluency practice.

Science and Social Studies

Grade 1 will complete our unit on simple machines, and begin habitats.
