

Grade 1 January Newsletter

Reading:

This month we will focus on making connections while reading. Students will learn the difference between text to self, text to text, and text to world.

Writing:

Grade 1 will be writing information pieces. Students will write chapter books informing their readers of a topic they are an expert in.

Math:

Grade 1 will be using Module 2. We will solve problems that call for addition of three whole numbers ($4+6+2=12$). In addition, Grade 1 will learn the Commutative Property of addition ($8+3=11$ then $3+8=11$). Please continue to practice addition and subtraction facts with your child. Each week we will have a math fluency practice.

Science and Social Studies:

This month in Science, we began our unit on simple machines.
