

NOVEMBER 2016

# 3<sup>rd</sup> Grade News

Silver Hill Horace Mann Charter School

## A note for Parents!

Homework is to be completed each night that we have school Monday-Thursday. We ask the students to complete 15 minutes of reading and 15 minutes of Khan Academy or other related math activities.

**\* The focus of Grade 3 Math is mastery of multiplication facts 0-10. It is important for your students to practice their facts each night. \***

Thank you for your continued support, please know that it is appreciated.

Ms. Alves, Mrs. Perez, Ms. Quigley & Mr. Rittenour

## What We're Learning!

**ELA** – Your students will be learning to explore important ideas in Writing About Reading. They will learn to build meaningful responses regarding character development and their traits. Finding evidence from the text to support their thesis.

**Math** – We are learning about measurement (Time/Mass/Volume) and estimating/rounding in Module 2 of EngageNY Grade 3 Math.

**Science** – We just finished up our Simple Machines Unit. Your students really enjoyed building their catapults and puff mobiles.

**Social Studies** – In November we celebrate the first people of Massachusetts, the Wampanoag's, and the Pilgrims who settled and started Plimoth Colony.

**Second Step** – We are using Second Step in the classroom as our anti-bullying curriculum.
