

# Grade 1 News

## Math

We will be working on addition using number bonds (number bonds are a simple **addition** fact which has become so familiar that a child can recognize it and complete it almost instantly) and manipulatives. It would be a great idea to practice math facts each night.

## Social studies

We will focus on families and be learning the difference between wants and needs.

## Reading

We are getting used to our Reader's Workshop routine. We will slowly introduce different strategies to increase reading skills and build stamina.

## Writing

We are also getting used to our Writer's Workshop. We write everyday. Most of the writing will stay in a writing folder. Feel free to request it at any time.

## Reading log

Reading logs will go home every Monday and they are due on Friday. Please help your child with the writing if necessary.
