

January 21, 2018

Dear Silver Hill Families,

Wow! Those Pats!! What a way to start the week J

We have another fun event coming up this week! Instead of this month's Coffee with the Principal, we are holding a Marvelous Math Night this Wednesday, January 24 at 6:00. This is a fun hands-on math activities night for students in grades 3, 4 and 5 and a parent/guardian. Your student will teach you a variety of math activities from classroom instruction, including using chrome books. To accommodate enough families we are limiting participation to one adult per student please. Use the attached form to reserve your space for some math fun and activities to do at home!

A reminder that this Friday, January 26, is an early release day for staff professional development. Early Birds will be dismissed at 11:15.

Have a great week...no snow days!

Margaret
